Objective

Motivated Frontend Developer seeking a role to leverage skills in creating dynamic, user- friendly interfaces, optimizing web application performance and enhancing design aesthetics to deliver exceptional user experiences and drive project success

Experience

- **CMExpertise Infotech Pvt. Ltd, Ahmedabad, India** February 2025 - Present
  React.js Developer
  - Developed and maintained an E-commerce platform using Next.js, Redux Toolkit, JavaScript, and Tailwind CSS
  - The platform includes role-based access control across Super Admin, Vendor Admin, Branch Admin, and User panels. It efficiently manages product listings, orders, and user accounts.
  - Integrated Google Analytics tracks page views, user interactions, and conversions. Focused on building a scalable, secure, and high performance system with an emphasis on user experience and real-time insights.

- **Incipient Infotech, Ahmedabad, India** August 2023 - February 2025
  Frontend Developer
  - Specialized in creating robust web applications using HTML, CSS, JavaScript, React.js, TypeScript, Bootstrap, and Tailwind CSS.
  - Built user-friendly, responsive, and high-performance web applications by leveraging modern technologies and frameworks. Proven track record of effective collaboration with cross-functional teams to achieve project goals and deliver high-quality results on time.
  - Committed to continuous improvement and adherence to industry best practices, ensuring innovative solutions that enhance user experience and engagement.
  - Dedicated to ongoing learning and staying current with industry trends, driving the pursuit of knowledge in emerging technologies and methodologies.
  - Actively seek opportunities to enhance knowledge of cutting-edge technologies and methodologies.

- **Surekha Technology , Ahmedabad, India** January 2022 - March 2023
  Junior Software Engineer
  - Developed UI components with a strong focus on responsive design using CSS.
  - Leveraged fundamental design principles to create visually appealing and adaptable user interfaces.
  - Ensured seamless user experiences across various devices, demonstrating expertise in crafting flexible and dynamic layouts for optimal usability.
  - Utilized Bootstrap extensively for streamlined CSS styling capabilities, enhancing visual appeal and ensuring consistency across web projects.
  - Collaborated proficiently with JavaScript and its libraries to implement interactive and functional components.

Skills

- Html
- Css
- Javascript
- React js
- Next js
- Tailwind Css
- TypeScript
- Redux
- Frontend development

Projects

- **LauncheStore**
  In this project, I developed an ecommerce platform with Super Admin, Vendor Admin, Branch Admin, and User Panels. Super Admin manages vendors and branches. Vendor Admin handles products, categories, brands, users, and reports. Branch Admin manages products, orders, and branch-specific reports. I integrated Google Analytics for tracking user behavior. The platform is built with Next.js, Redux Toolkit, TypeScript, and Tailwind CSS.
- **Restaurant Platform with Administration Panel**
  Managed two distinct panels: the admin panel and the restaurant owner panel administrators to manage restaurant owners, oversee bookings, handle transactions, and perform various administrative tasks. This setup ensured efficient control and streamlined operations for both administrators and restaurant owners.
- **Event Management Portal**
  Managed two distinct flows: the event manager flow and the booking user flow. Implemented QR code scanning functionality to enhance user experience and streamline the booking process. This comprehensive approach ensured seamless integration and efficient management of events and bookings.
- **Client Showcase Site**
  Created a client portfolio website with data fetched from a Strapi API, ensuring the UI was fully responsive for optimal viewing across all devices. Implemented modern design principles and best practices for performance optimization, resulting in a fast-loading, visually appealing portfolio. Seamless integration with Strapi facilitated easy content management, empowering the client to update the portfolio effortlessly.

Education

- **L J Institute of engineering and technology, Ahmedabad, Gujarat, India**
  Bachelor of Engineering
  8.46 | 2018 - 2022
